With your climate protection contribution in the amount of 51.474,00 Euro, you are supporting the following project:

## India: Renewable energies from crop residues

atmosfair supports thousands of small farmers in India to sell their previously worthless crop waste to biomass plants. Thereby fossil fuels are replaced by renewable energy sources.

Since 01.01.2021, atmosfair implemented the authorization of projects according to the new framework of the Paris Agreement. The projects listed here have already received approval from the host countries (incl. so-called Corresponding Adjustments) or use CO<sub>2</sub> reductions from before the above reference date in order to avoid double counting.
